WHEN DO WE GO "DOUGHNUT"?

The doughnut or super-balloon tire is hovering now in the background of the automotive picture. While the engineers are experimenting and the known benefits of the large sized tire are being weighed, standardisation of sizes is already under discussion by the manufacturers. Seven tentative sizes are understood to have been approved by leading tire manufacturers. Smallest of the seven is 6 50-16, the largest 9.00-16.

NEW SIGN FOR HIGHWAYS.

The province of Ontario, first to inaugurate the famous King's Highway signs for the direction of tourists, is now leading the way with another type of informative sign. This new sign, according to a Government official at Toronto, will be posted on the main highways outside the important towns and cities. It will tell the name of the next town en route and the distance to be traveled to reach it.

Stony Plain and District

Mr and Mrs Wm Jordan, Drumbeller, are visiting, this week, at the Cody home, on 1st ave.

Mr and Mrs A Anderson motored to Wetaskiwin on Tuesday afternoon. Mr Anderson's sister was married there Wed: the 12th.

At the recent Departmental exams, in grade 8 at Wetaskiwin public school, which John Kulack teaches, 29 pupils passed to grade 9.

Graingrowers will note that the elevators in Stony Plain are closed every Saturday afternoon during the summer months.

A meeting of Stony Plain Local of United Farmers will be held in their hall, over the P.O., on Saturday next, the 15th, at 3 p.m. The business will include making arrangements for a fishing match and picnic.—George Herbert, Secretary.

BUTTER AND EGGS WANTED at The Royal Cafe.

The Heatherdown Picnic.

The young people from Stony who attended the sports Day at Heatherdown, Friday report having had a very good time, several bringing home trophies of the contests.

Stony's Juvenile ball players beat the Heatherdowns by a score of 16 runs to 7. Stony's line-up:—

Louie J Miller p, Jim Jordan c, Fred Mayer 1b, W Gannon 2b, P Gannon 3b; G Trapp ss, C Kewley rf, P Smith of, W Larson lf.

Stony's Senior Girls played the Heatherdown girls and won by 23 baskets to 16. Stony's team—E Fischer, E Fuhr, A Miller, J M Campbell, C Pailer.

Off to the W-L Convention.

Rev H J Boettcher, pastor of the Grace Lutheran church and well known in Stony Plain is leaving this week to attend the 41st international convention of the Walthers league to be held in Chicago from July 15 to 21. Mr. F Gabert, student of Concordia Theological seminary, St. Louis, will fill the vacancy during Mr Boettcher's absence.

U.F.A Special Meeting.

A special U. F. A. meeting, to be held tonight (Thursday) July 13, by Holborn U.F.A. Local at their hall, will have a number of interesting timely topics come up for discussion. Among those billed to give addresses are: J Russel Love, M.L.A. for Wainwright; D McLeod, M.L.A.; and George Bevington, the well known authority on banking.

Women's Farm Week.

The usual Women's Summer farm week will be held this summer at the school of agriculture, Olds, from July 31 to Aug 4. The usual meet at Vermilion School will, this year, be combined with that at Olds.

Get It at HARDWICK'S

THIS WEEK'S SPEIALS:

Says Capitalist Nations Should Pool All Scientific Knowledge To Meet Soviet Trade Challenge

Warning that capitalistic nations must pool all scientific knowledge and trade secrets to meet the "challenge of Soviet Russia's industrial system and end unemployment" was voiced before the American Association for the Advancement of Science.

Only by this means could the nations that now are in the least industrially maintain this lead, said Dr. A. P. M. Fleming, engineer of the Metropolitan-Vickers Electrical Company of England, one of the 30 foreign scientists invited to speak before the summer meeting of the association.

"There is in the U.S.S.R.," he said, "a larger body of organized research workers under unified control than exists in any other individual country in the world. The Soviet government looks to science to play a most important part in its industrial and economic activities."

"Whether the Soviet plans succeed or fail, already enough has been accomplished to show the possibilities of this combined scientific effort. Even partial success may have far-reaching effects on the rest of the industrial world."

"This situation is developing at a time when there is little industrial co-operation between the other countries and there is no doubt that this challenge of a communist to a competitive plan justifies a careful consideration of the advantages of further co-operation especially in the matter of pooling of scientific resources and experience."

"With the lead that the foreign manufacturing countries jointly possess and with the fullest use being made of their joint scientific resources, it should be possible to meet the challenge successfully."

Navigates Her Own Craft

Twenty-One-Year-Old Nova Scotia Girl Has Master's Papers

Nova Scotia has almost as many sea captains as Kentucky has colmenas, with the difference that the Bluenose sailors have a better right to their titles because of experience, ability and valor. But one captain among them stands unique—unique because she is a woman.

Captain Mildred I. Wamboldt, 21-year-old native of LaHave, is probably the only female in Nova Scotia who not only owns, but holds master's papers and actually navigates her vessel. And the craft is no toy yacht. It is the 432 gross ton schooner E. P. Theriault.

"Why, I don't think I could live if I had to stay ashore," the pretty young sailor declared.

Born of a long line of sea-faring forefathers, she boasts that she hasn't been six months ashore in the past nine years. Bred to the sea, she made many trips with her foster-father, Angus Publicover, Staten Island, N.Y., formerly of LaHave. Then she made a special study of navigation.

Now her schooner is registered in her name. As master, she signs the clearance papers, transacts all the business of the craft, and rules with a firm hand her crew of one Nova Scotia and eight natives of Barbados. Her foster-parent accompanies her on her voyages, but only as mate. She trusts the schooner to no one but herself.

Captain Mildred is no fair-weather sailor. Last February she sailed from Turks' Island with salt from New York, but when 250 miles from destination, the craft was caught in a terrific gale. The vessel was forced to turn and run before the wind. Her sails were stripped from her and her gear damaged. By the time the hurricane had blown itself out, the E. P. Theriault had been blown within 150 miles of Barbados. The young captain put into the islands, and sold her cargo there.

She makes Barbados from Shelburne in 15 days, and from Bridgewater in 17 and 13 days, on different voyages. She made a trip from Bridgewater to Turks Island in 13 days, all considered very good time.

The E. P. Theriault, built on the Fundy shore, is now registered at Bridgewater, Barbados.

Where Men Excel

Better Than Women At Guessing What Children Like

Men are more adept at selecting amusements for children than are women, says Florence Bamberger, one of the two women professors at Johns Hopkins University. Men know better what children like; women know better what is good for them, she contends.

Miss Bamberger bases her belief on an experiment she conducted in compiling information for a volume on the art of decorating children's books. In this, she discovered men were able to select subjects that appealed more to children than were women. The reason for men's ability along this line, she thinks, comes from the fact that the time they spend with the children is largely in play. Women are occupied with the technical aspects of rearing children.

Chemical Changes In Liquids

Scientists Find High Pitched Sounds Will Kill Bacteria

If the baby could cry at a higher pitch he might help make his own milk more digestible.

A study of the effect of sounds in causing chemical changes in milk was reported to the American Association for the Advancement of Science by Dr. E. W. Fessenden and L. A. Chambers of the University of Pennsylvania Medical School.

Scientists have recently learned that bacteria in milk, water, fruit juices and other liquids can be killed by "super sounds" of very high pitch.

Not In His Lane

Paddy, who was eager to obtain work went to the employment exchange.

"Anything this morning?" he asked the clerk.

"Yes," said the clerk, after consulting his books, "there's a job at the Eagle Laundry. Do you want it?"

Paddy shifted uneasily from one foot to another.

"Well," he said, "it's like this, I really want work mighty bad, but the fact is I ain't never washed an eagle."

Were Large Shoes

Chief attractions of the state museum in Missouri's state house at Jefferson City are a pair of shoes, size 22, once worn by Miss Ella Ewing. She was a native Missourian, who died several years ago, and was 8 feet 4 inches tall. She was supposed to be the "largest woman in the world" during her life.

Prince Of Wales Expresses Confidence In Canada's Ability To Emerge From Depression

Very Easy To Obtain

Newspaper Claims Untraceable Poisons Sold Freely In England

Two drugs capable of killing a man without trace are on sale at large chemists throughout the country, says a London newspaper.

They are supplied without question to any person who demands them. One of them bears no "poison" mark on its bottle.

Neither of them can be detected after death.

Many poisonous substances are obtainable from all chemists, but these two are remarkable for the ease with which they are bought, for the impossibility of tracing them once they have been administered, and for the fact that they produce symptoms similar to those due to natural diseases.

The pathologist of a famous London hospital, questioned by a newspaper representative about one of these substances, said "If ever I wished to commit murder, this is what I should choose."

It is a protein-like compound, in daily use for the treatment of a common disease. It is supplied as a liquid in tubes which bear no poison mark. A child can buy it anywhere.

And yet the injection of the contents of a two-shilling tube induces coma followed by death in from four to six hours.

It is impossible to analyse, and it leaves no trace in the body after death.

A newspaper representative visited a chemist's shop near Oxford Street, and for two shillings he received a tube containing more than a fatal dose of the liquid.

The second deadly poison is a liquid made from the seeds of an Indian tree. The medical dose is one drop, and an overdose results in an exceedingly painful death.

Two grams are enough to produce fatal results.

It, too, is impossible to detect after death.

At the same shop, two grams of the poison were bought for 1s. 4d. For this it was necessary to sign a receipt, but no steps were taken to verify the name and address given, and it was not asked to what use the drug was to be put.

Little Things That Count

Things that help one to sweeten and lighten: Visit of your neighbor's hens to your garden; the hiding in your favorite tulip bed of a bone by a vagrant dog; the early rising neighbor who plays a lively tune on his lawn mower just as you are getting off to your morning's sleep.

The Prince of Wales told 700 guests at a Dominion Day dinner he was confident of Canada's ability to emerge from the economic depression and proceed to a bright future.

Standing beside Prime Minister R. B. Bennett, of Canada, and addressing an audience including representatives of every phase of empire life, the prince said, "I know Canada better than any other part of the empire. I am really quite ashamed to think a year has elapsed since I have been to my ranch in Alberta; not that my residence at High River or any effort on my part could alter the price of cattle or vary the exchanges."

"Canada," he continued, "is suffering with the rest of the world. I am proud of my association with her, and am confident, as her citizens are confident, of her recuperative powers and bright future."

The Prince dealt briefly with the struggling world economic conference and last year's Ottawa economic conference which brought together representatives of all the empire nations.

"The hopes of the world," he said, "are fixed just now on the economic conference, but our mind naturally goes back to a year ago, the eve of the Ottawa conference."

"Quite apart from the discussions and agreements then made, that gathering showed the world that here is a great national unit able by the very nature of its composition to meet in union but without any trace of that obstacle to progress, and that evil of present-day, individual nationalism."

"We all know," he said, "that the work of the economic conference would be beset with very great difficulties, but we must be confident for the sake of the world."

"Not the least impressive feature (of the world conference)," he declared, "is participation in representation of various parts of the great British Commonwealth of nations." Those nations of the commonwealth, he said, come with best wishes to the "great task of helping put the world on the road to economic and financial recovery."

Selling Big Japanese Coin

Largest Gold One In World Weighs Nearly Four Ounces

The Japanese Oban, the largest gold coin in the world, is to be sold at London, England.

Stamped with the seals of the government mint, the Japanese Oban is a large oval plate of gold measuring five inches across, and weighs nearly four ounces.

The coin was signed in Japanese ink by the superintendent of the mint as a guarantee of its purity. The signature was considered the most important part of the coin, and if it was rubbed off the plate ceased to be current money.

U.S. Population Increases

The population of the United States has increased 2,917,954 since April 1, 1930, to a new high of 125,693,000, as declared the census bureau in presenting some complicated additions, subtraction and divisions arrived at by estimating the increase since the 1930 census on the basis of the available data regarding births, deaths, immigration and emigration.

Had Long Wait

When Peggy returned from her first day at school she was asked how she enjoyed it.

"I like it all right," said Peggy, "but I didn't get any present."

"What made you think that you would get a present, dear?"

"Teacher" said, "Sit there for the present; and I sat there all morning and never got one."

Brazil's Surplus Coffee

Brazil this year will have the biggest crop of coffee in history, millions more bags than the whole world uses. It looks as if that country will have to continue its borders, having already burned more than 15,000,000 sacks.

KING FESAL OF IRAK VISITS LONDON

Here we see His Majesty King George leaving Victoria Station with King Faisal of Iraq on their way to Buckingham Palace where the Arabian monarch is to stay for a few days. King Faisal is acknowledging an enthusiastic reception by the people of London.

WORLD HAPPENINGS BRIEFLY TOLD

The Canada-South Africa trade agreement, negotiated during the imperial economic conference in Ottawa, last summer, has become effective.

The world disarmament conference has been adjourned to Oct. 10 despite a protest by Rudolph Noddy, Chancellor Hitler's representative, that the recess announced to a first-class funeral for disarmament.

Approximately 2,500 single unemployed men are in Vancouver receiving no assistance from either city or province because of their refusal to go to relief camps or because they left these establishments.

E. L. Bushnell, director of radio station CKNG, Toronto, has been engaged by the Canadian radio broadcasting commission to make a tour of the western provinces to organize programmes from this area.

Detention for 28 days was the sentence meted out to Guardaman Harris, sentry at Windsor Castle, following a court martial. Harris was found asleep at his post while the royal family were in residence some time ago.

A plea for an even greater measure of co-operation between all nations in the fight against tuberculosis was made by Professor S. Lyle Cummins, of England, noted authority on the disease, at the annual dinner of the National Tuberculosis Association held in Toronto.

Dr. John M. Chapman, associate professor of banking at Columbia University, in an address before the round table on money, banking and financial situation, at the institute of public affairs, said that the United States "bank failure movement is not ended."

Seven speedy destroyers used by the United States coastguard for years to chase rum runners and other smugglers operating off the Atlantic coast have been returned to the navy because the government's economy programme necessitated a reduction in expenditures.

Has His Own Method

British General Taught Himself Eight Or Nine Languages

Lieutenant-General Sir Edmund Ironside has exchanged what was practically a sinecure at the Tower of London, England, for an active part by his new appointment as Quartermaster-General of the Forces in India. As the youngest general officer in the British Army for many years—until he was fifty-four years old—he will now have an opportunity to use his keenness to the full. He taught himself the eight or nine tongues he knows by a method of his own, memorizing every day a score of nouns and adjectives. Verbs come in their own good time, and if he is ever at a loss for one, he bridges the gap by an eloquent gesture and carries on calmly with the nouns.

—W. N. U. 2002

Faith in Western Canada

Wrigley Company Breaks Even On Wheat Deal

Wheat taken by the William Wrigley, Jr., Company of Canada in payment of debt owing them in western Canada has now been sold without financial loss states Allan Ross, president of the company.

In December, 1930, the company announced all money owing it in the prairie provinces would be used to purchase 1,000,000 bushels of wheat. The announced intention was to leave the money in western Canada in wheat and the company's announcement declares its faith in Canada and her chief commodity had been more than justified.

Canadian Authors Tour Britain

Party Of Fifty Will Visit Literary Centres Of The British Isles

Following the annual convention of the Canadian Authors' Association which this year was held in Quebec City, a party of about 50 Canadian authors and their friends sailed (July 1st) on the "Empress of Britain" for a tour of the literary centres in the British Isles. They will be met by some of the most distinguished authors of Great Britain and will experience the advantages of personal contacts with the scenes depicted in English literature including the country of Hardy's "Tess" the spot where Keats wrote "Ode to the Nightingale," Westminster Abbey, Dr. Johnson's house, the inn made famous by Sam Walter, Stratford-on-Avon, Kenilworth Castle, Wordsworth's home, the Robert Burns' country, and other centres of literary interest.

Among those who, it is expected, will extend courtesies and greetings to the visiting Canadians will be Sir James Barrie, Rudyard Kipling, John Buchan, John MacSlelland, Sir Henry Newbolt, J. B. Priestley, John Drinkwater, and George Bernard Shaw. There will also be recognition by leading public bodies and parliamentarians.

The Canadian Authors' Association was organized in 1921 with a view to promoting the interests and craftsmanship of Canadian authors. It has branches from coast to coast and a membership of about 800. The association has helped to disclose the very substantial contribution which Canadian writers are making to current literature—a contribution which had to some extent escaped observation due to the fact that a large part of Canada's literary production finds its way to the public through the channels afforded by publishing houses in the British Isles and the United States, with the result that numbers of well-known Canadian writers were commonly regarded as being Englishmen or Americans. During the 12 years since the association was organized great advances have been made in the Canadian publishing industry, particularly in the field of magazines and literary periodicals.

Great Masonic Gathering

Duke Of Connaught Opens New Headquarters In London

At one of the greatest Masonic gatherings which has been held in London, England, for many years, the Duke of Connaught, Grand Master, opened the new Masonic headquarters adjoining the old headquarters in Great Queen Street. The lofty tower of the new building rises above the not inconsiderable buildings of the neighboring Kingsway. There is a great inner temple surrounded by 15 lodges rooms, a large museum and library and extensive administrative offices. The cost which runs to well over a million pounds, was raised on the suggestion of the Duke of Connaught just after the close of the war. The building will be a memorial both to the close of the war and to many Freemasons who fell in action.

By Ruth Rogers

YOUR NEW BLOUSE WITH THOSE SMART FOLD SLEEVES AND BECOMING TAILORED

NECK

Here's a charming new model which has lots of good style about it. Yet as you can see, it is exceedingly simple to fashion, yet every detail conforms to the dictates of the mode. White crinkly crepe silk made the original.

It is also lovely in grey, maize, light blue or eggshell. Style No. 701 is designed in sizes 14, 16, 18, 20 years, 38 and 40 inches bust. Size 18 requires 2½ yards of 39-inch material. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

JULY 16

DEBORAH

Golden Text: "God is our refuge and strength, a very present help in trouble."—Psalm 46:1.
Lesson: Judges, Chapters 4, 5.
Devotional Reading: Psalm 46:1-3, 5-11.

Explanations and Comments

Jehiel Oliphant, Captain Of Jabin, King Of Canaan, Chap. 4:1-3: "It is easy to fall to discover a great crisis between the verses of an old narrative, but this was a great crisis. Here was a weak and struggling people, whose future was of immense consequence to the whole history of religion, charged with a mighty spiritual destiny, and in danger of just ceasing to be anything at all before they had even begun to be what they were meant to be. Their spirits were broken; those chariots drove across their very soul. If ever their leaders came together, they said: 'It's no use, Sisera is too strong for us; we have only foot soldiers, poorly armed. If we should rise against Sisera, he would only ride us down the more fiercely.' And then, when the men were of no use at all, a woman turned the tide of history." "Something very much like that happened in France five hundred years ago. England held France in the hollow of her hand; the spirit of the French was broken; the State was divided; the king was a poor weakling with no thought but of his own pleasure. Then a peasant girl, 'her' voice, and her soul kindled within her. She touched the smouldering spirit of her race with her own kindling fire. She saw her King crowned in grey old Rheims Cathedral; and, though she herself died a simple peasant, she left a legacy of her time, all the world remembers Joan of Arc. There is no limit to what a popular soul can do when the time is ripe."—Julius Glens Atkins.

Deborah's Challenge To Barak, Chap. 4:4-7.—Deborah was a prophetess and the judge of Israel at this time. She was accustomed to sit under a palm tree (therefore known as the Judge Tree). Deborah declared what was the judgment of God in national affairs, and she also acted as a mediator among men. One of the Roman Empire, which represented the capture of Jerusalem, is pictured as a woman seated under a palm tree, captive and weeping. "It is the contrast of that figure which will best place before us the character and calling of Deborah." Dean Stanley writes: "It is the same Judaea palm under whose shadow she sits, the palm of the East, and the palm of the West, and the palm of the future." With faith in God's directing hand as empowered Joan of Arc for her task, Deborah summoned Barak and ordered him to raise a force of ten thousand men from the tribes of Naphtali and Zebulun and attack Sisera with his chariots and his multitudes at the River Kishon. Only two tribes were called because they were the most interested in defeating the oppressors, for their territory was the Plain of Esraoth. "And I will deliver him unto thy hand"—Deborah is speaking in the name of Jehovah.

Fruit Popular In Canada

Consumption Of Apples, Oranges and Bananas Is Heavy

Notwithstanding the fact that the people of Canada eat more eggs and butter than the people of any other country and register high as meat eaters, they also enjoy fruit. The statistics of the Canadian Government have just released the figures for fruit consumption in Canada for the fiscal year ended March 31, 1933, which show that the domestic consumption of apples was 2,272,100 barrels, of oranges 2,683,471 boxes, and 3,325,900 stems of bananas. On the basis of the population of 10,506,000 the average per capita consumption was about one-fifth of a barrel of apples, more than one-quarter of a box of oranges, and less than one-third of a stem of bananas.

The total domestic consumption of the commercial apple crop grown in Canada has been fairly constant during the past ten years, varying in somewhat the same manner as commercial production, whereas imports show a gradual decrease which has been more rapid during the last three years showing a steady increase in imports. In fact with a drop during the 1932-33 season to about the 1927-28 level, although the population has increased at a greater rate and during the last three years consumption per capita has declined. In year and show no decided trend to decrease or increase, which trend is also lacking in the consumption per capita.

To Measure Wind Resistance

Seven Hundred Miles-An-Hour Tunnel

Built At English Laboratory
Important improvements in the range and accuracy of shell and rifle fire will result, it is hoped, from a new 700 miles-an-hour wind tunnel, which is to be constructed at the National Physical Laboratory, Teddington, England.

The tunnel will provide the fastest stream of air which has yet been produced—with a velocity nearly equal to that at which sound travels through air. This will render it possible for the first time for wind resistance to be measured at speeds closely approximating to the highest muzzle velocities obtainable.

As a result research workers will be able to obtain exact data on the relative merits of projectiles constructed with various modifications to existing standard shapes. Instead of elaborate and costly gunnery trials with projectiles the whole work will be performed in the laboratory. The air will rush past the shell instead of the shell rushing through the air.

The chief directions in which improvement may be expected are in increased accuracy in the case of shells, and greater resistance to "drift" due to a sideways wind, in the case of rifle-fire. In the latter case it will be possible to reproduce the full effect of lateral wind of any desired strength by placing the bullet to be tested at a small angle to the 700-miles-an-hour gale.

The importance of such practical tests lies in the fact that hitherto it has proved impossible to make precise calculations of air resistance based on theory alone. With both ships and aircraft the knowledge that important improvements might be obtained by apparently insignificant changes in design.

In the method which will be adopted, the projectile will be suspended in the wind tunnel by an apparatus which will automatically record the various forces exerted on the projectile. This record can be transmitted by electrical means to an observer outside, who has as full a knowledge of everything that is happening to the projectile as if he were in the tunnel.

The new tunnel is to be constructed, in order to measure the speed of air pressure developed in the laboratory's compressed air tunnel for aircraft testing, which is ready to begin work.

When testing in this tunnel is completed, the air it contains, which exerts a pressure of 5,000 tons on the giant castings at either end, will be released through the new projectile tunnel. It is estimated that the blast of air will last for about twenty minutes at the full speed. In addition to projectile tests the tunnel will be used to measure the forces on the tops of aeroplane propellers, from which other improvements are expected.

The creation of the compressed air tunnel, which alone makes the projectile tunnel a possibility, is a minor triumph for the British steel industry. Its components are so large that it was necessary to build the containing building round it. The whole has been tested up to the record pressure of 550 pounds a square inch—more than forty-five times the normal pressure of the atmosphere.

Taking Wonderful Trip

Party Of Ten Hawaiian Boys On Way To Yukon

When R.H.S. Monowood docked in Vancouver, it was just the end of another journey for most of the passengers, but for 10 boys from Hawaiian Islands, it was arrival at the stepping-off place for magnificent adventure.

They are members of a party from Bunscho school, under direction of Mr. Bayne Beauchamp, and their destination is Yukon and Alaska, where they will do nothing at all except: Travel 1,600 miles on the Yukon River in small boats; prospect for gold; botanize; take samples of plankton (minute fish food); take moving pictures. They have arranged for some boats at Whitehorse, and will build others.

The boys, ranging in age from 14 to 17, were picked for their physical and mental ability. They will visit Dawson, Fort Yukon and Tanana on their trip down the Yukon.

POWERS AGREE TO SUSPEND WORLD PARLEY

London, Eng.—The great powers of the old and new world agreed to suspend the world economic conference until a more propitious time.

Thus, this historic assemblage, called together in an effort to improve economic conditions throughout the world, admitted itself defeated by a violent collision of monetary policies.

The final decision came in a meeting of the gold bloc nations where it was decided the American stand, as reiterated by the United States delegation after cable and telephone communication with President Roosevelt, still emphasized the differences which, temporarily at least, were irconcilable.

While Americans expressed a firm conviction in the declaration addressed to the secretary-general of the League of Nations that the way was still open for the conference to continue with its labors, they informally expressed willingness to acquiesce to a recess. This was tentatively set for two months' duration.

The gold countries evidently were concerned over their inability to win over Great Britain, which maintained a neutral attitude while showing, with Canada and other dominions, a leaning toward the United States, and a statement issued from the yellow metal camp left wide a loophole for resumption of the conference.

The gold bloc's declaration said the American statement "will facilitate recalling of the conference" and permit it to resume later "in an atmosphere of sympathy." "Revelation of the dollar in terms of American commodities is an end from which the government and the people of the United States cannot be diverted," said a statement issued by the American delegation at the world monetary and economic conference.

Trade With Russia

British Government To Take Into Account Anglo-Canadian Agreement

London, Eng.—A questioner in the House of Commons was assured by a government spokesman that in trade talks between Britain and Russia, the British government will take into full account article 21 of the Anglo-Canadian trade agreement.

This provides that where the imperial preferences are endangered by the importation of products sold at an unfair price because of state subsidies or state production, such commodities will be prohibited entry.

May Take Vacation

Health Of Sir John Simon Is Causing Anxiety

London, Eng.—The health of Sir John Simon, British Secretary for Foreign Affairs, is causing increasing anxiety to his friends and it is understood he may take a long vacation, probably at sea.

A perforce for him has been mentioned if the low blood pressure, from which he is suffering, makes his continuation in office inadvisable.

He was reported to have sold his country estate, Fritwell Manor, in Oxford.

King Opening Big Dock

Southampton, Eng.—The greatest dry dock in the world, built at Southampton for the Southern railway at a cost of \$10,000,000, will be opened by the King July 26. During the construction of the dock 2,000,000 tons of earth and mud were excavated from the site and 750,000 tons of concrete were used.

Ontario Dentists Robbed

Niagara Falls, Ont.—Five dental offices in Hamilton and Niagara Falls were broken into and ransacked for gold leaf, gold, scrap and false teeth by thieves. At Hamilton loss to three dentists through theft amounted to close to \$400.

W. N. O. 2002

Plan New Processing Tax

U.S. Farm Officials Expect Large Returns From Levy On Hogs

Washington.—United States farm administrators have drafted tentative plans calling for a processing tax on hogs by Oct. 1 to provide up to \$150,000,000 to finance application of the Farm Act to corn and swine. The plans will not take effect until after a meeting of corn and hog producers and their representatives which secretary of agriculture Henry Wallace has suggested be called in mid-July to obtain a cross-section of sentiment regarding the relation of the act to the two related products of the corn belt that have suffered from low prices in recent years.

If the levy is approved in connection with a corn-hog program to be worked out by August 1, it would be the fourth processing tax to go into effect before winter sets in.

The 3-cent a bushel wheat tax became effective at midnight, July 8; a maximum processing tax on cotton, probably four cents, is to become effective on August 1 if the acreage reduction campaign now under way in the cotton belt succeeds, and a processing tax of about six cents a pound is to be levied on cigar leaf tobacco by October 1.

Death Toll Was Heavy

Accidents Take 144 Lives In U.S. On Independence Day

New York.—Lives of 144 men, women and children paid for the celebration in United States of July 4th, 157th anniversary of the republic.

Automobiles accounted for 62 deaths; 46 persons drowned; six died as a result of strokes, and 30 were killed from other accidental causes.

Thousands of other celebrants suffered injuries, many were critically hurt and property damage was heavy. Shootings, fights and aeroplane accidents contributed to the death toll.

In Chicago a parachute jumper fell to his death before 100,000 horrified spectators at the world's fair.

Especially, Chicago, the play center of the nation as the result of the Century of Progress, escaped with but three automobile fatalities despite traffic-closed streets that poured massive crowds into the world's fair ground.

Electrify Grain Elevators

Big Program Of Work Is Started In Alberta

Calgary, Alberta.—An electrification program for 175 Alberta grain elevators, to cost \$125,000, has been started, according to the Calgary "Albertan." All switching and control equipment will be manufactured in Canada. Eastern manufacturers will turn out about 400 electrical motors, the paper adds, the co-operation of elevator companies, equipment manufacturers, contractors and officials of the Calgary Power Company, power supply source, making the program possible. The work will bring jobs to men at present unemployed, the paper concludes.

Demand For Canadian Wheat

World Grain Show Delegate Sees Good Market In Britain

Winnipeg, Man.—"I look for a much broader demand for Canadian wheat in the United Kingdom market in the near future," said William Smith, Edinburgh, Scotland, manager of the Scottish Co-operative Wholesale Society, who arrived in Winnipeg. Accompanied by Neil Beaton, newly elected president of the society, Mr. Smith is en route to the World Grain Show at Regina this month.

To Repair Vessels

Kington, Ont.—One hundred men will be employed for the next three weeks or a month repairing the Canada Steamship Lines grain carrier "Brentwood" at Kington. Tuesday more than a score started work on the vessel, damaged when it ran aground a few weeks ago en route here with a cargo of grain. It was announced the job would cost between \$70,000 and \$80,000, the highest repair job in the district for some years.

HEADS ROTARY

John Nelson, native of Paisley, Ontario, and at one time editor or publisher of several leading Canadian newspapers, who was unanimously elected president of Rotary International at the meeting in Boston.

Whales From Churchill

To Be Placed On Exhibition At Chicago Fair

Saskatoon, Sask.—Saskatoon imported its first fish from Churchill—three pilot whales for local dinner tables. And the herring will be eclipsed by three white whales, destined not for dinner tables but for the world's fair at Chicago.

Procured for the Chicago show, the whales were caught off Churchill on June 29 and it is expected that they will make their first public appearance here during the next few days. S. H. Stebbings, Saskatoon, is endeavoring to make arrangements for showing them in a local cold storage plant.

The snowy whales are in ice for the train journey south.

Mr. Stebbings also expects to complete arrangements for a showing this summer on the class "A" western fair circuit.

Tax Compacts

Duty Boosted On Imported Powder

Ottawa, Ont.—Mildred's aids to beauty are going to cost her more. Recently the Minister of National Revenue boosted the excise tax on imported compacts and powder puffs from 3 to 10 per cent. More than that, this assault on the disfigure vanity case is retroactive to March 22, 1933, so that if Miss Canada has not already paid her 10 per cent on the foreign compact, the importer will be required to do so.

The increased tax applies to compacts, compact cases, or vanity cases, whether or not they contain any toilet preparation, and on powder puffs and powder pads.

Receive Warm Welcome

Thornton and MacDonald Reach Home After Release From Soviet Prison

London, Eng.—Cherry flowers and kisses awaited L. C. Thornton and William MacDonald as they arrived here, released by the Soviet authorities from prison where they were serving sentences imposed on conviction of bribery and espionage.

Thousands thronged the station platform to welcome back the men whose freedom was obtained by the British embargo on Russian trade.

Thornton's little daughter somehow was passed through the crowd to her daddy's car almost before the train stopped and was immediately in her father's embrace.

Thornton declared he and MacDonald were full of gratitude to the British government and the British people for so staunchly taking action which resulted in their release.

He also expressed gratitude to Sir Edmund Ovey, former British ambassador in Moscow and gratification at the confidence their own company had shown in the accused.

Would Become Citizen

Veregin To Apply For Naturalization Papers

Kamsack, Sask.—Making his first appearance in public since he was released by order of Mr. Justice R. A. Robson at Winnipeg from custody of immigration officials who had twice attempted to deport him as an alien, Peter Veregin, Doukhobor leader, told 2,000 of his followers from all parts of Saskatchewan and Manitoba, he had completed his five years' residence in Canada and he intends to apply for naturalization papers.

In the course of an address which dealt largely with religious matters, the spiritual as well as temporal head of the Christian Community of Universal Brotherhood, appealed to his audience to donate money to help suffering members of the community in Russia.

Independent Doukhobors at the meeting expressed the opinion the first duty of the community lay towards those of Canada's 16,000 Doukhobors who are suffering.

To Brave Niagara

Plans To Go Over the Falls In a Barrel

Niagara Falls, Ont.—Planning to venture over the foaming cataracts of Niagara Falls, Alfred Rioux, of this city, is scheduled this month to make the daring plunge, encased in an iron torpedo-shaped barrel.

The barrel Rioux intends to use, is of steel construction with a port-hole locking from the inside.

Rioux intends to plunge over the Horseshoe Falls and through the lower rapids to Queenston.

RUSSIAN DELEGATE AND HIS ENGLISH WIFE

Here we see V. Litvinoff, leader of the Soviet Union delegation to the World Economic Conference, leaving the Geological Museum, where the conference is in session, with his wife, who is an Englishwoman.

BUYING POWER OF WHEAT IS UP FIFTY PER CENT.

Winnipeg, Man.—Purchasing power of wheat in western Canada over "things that farmers buy" today stands at 70 per cent. of the 1913-14 price, compared with 40 per cent. in mid-April and only 22 per cent. on December 15, last year, when wheat fell to 38 cents per bushel in Winnipeg market and touched the lowest point in the history of the grain trade.

These figures are shown in the farmers' index chart compiled by the Searle Grain Company Limited. Index figures on livestock show cattle with purchasing power of 59 per cent. of the pre-war price; hogs 53 per cent.; and lambs 73 per cent.

Price of wheat used in the compilation is that paid to farmers at elevators in western Canada for No. 1 Northern on the basis of 25 cents per 100 pounds freight, which is 15 cents a bushel.

In the things farmers buy are listed 146 items essential to an average grower in the west to carry on production.

There are 16 items of groceries, 37 items of clothing, 29 items of household equipment, 51 items of farm equipment, 11 items of farm machinery, and two items of municipal taxes in the list.

The compilation notes that the index of things farmers buy is still 127 per cent. of the 1913-14 level.

Woman Will Supervise Refueling Of Monoplane

Minneapolis Girl To Aid Post At Two Siberian Posts

New York.—Miss Fay Gillis, 23, of Minneapolis, will direct the refueling of Wiley Post's monoplane, "Winnie Mae of Oklahoma," at two Siberian points on his projected world solo flight.

Lee Tresholt, Post's representative, said Miss Gillis had left Moscow on June 25 for Novo-Sibirsk, where the aviator plans to stop after leaving Berlin. While Post eats and takes a short nap, she will supervise replenishment of the gas tanks and any adjustments the plane needs.

Princess Royal Must Rest

Only Daughter Of King George Canceled All Engagements

London, Eng.—It was announced today that the princess royal has cancelled all her engagements.

"There is no reason other than that her royal highness has to rest," it was stated at her London home.

The Countess of Harewood, the princess royal, is Mary, the only daughter of King George and Queen Mary of England.

Chinese Feel Insulted

Chicago.—The Chinese Consolidated Benevolent Association protested to the Century of Progress Exposition officials against the inclusion of the southern Manchukuo exhibit in the Japanese concession at the exposition. A letter signed by Chew Low, president of the association, called the exhibit "a direct insult" by the Japanese.

R.C.M.P. Promotions

Ottawa, Ont.—Two promotions to the rank of acting superintendent were announced from headquarters of the Royal Canadian Mounted Police here. Inspector V. A. M. Kemp, adjutant of the force here, and Inspector Herbert Darling, assistant to the director of criminal investigation in Ottawa, receive these appointments as from July 1.

Historical Page At

Prince Albert, Sask.—Four hundred performers will take part in the historical pageant being prepared for the golden jubilee Prince Albert annual exhibition July 21 to August 3 inclusive. One hundred and eight small girls, 64 young men and 212 young women will be required for the production being prepared for presentation before the grand stand.

The World's First Electric Stove Was an Oven

It all came about as an adjunct to the advent of Electric Street Cars which were first introduced into Canada at Ottawa in the fall of 1892 by the young electrical contractors Messrs A Ahearn and W T Soper. Critics (as is ever the case with any radical advance) declared electric cars could not be operated during winter in Ottawa—the passengers would become human icicles.

When some of the more daring critics ventured on one of the new cars during an intensely cold snap they were almost "shocked" to find not the frigid atmosphere they had expected, but rather the balmy atmosphere of the sunny south—with this difference, however: that the warmth came not from the sun overhead, but from under the seat. This was too much; their scepticism "melted" and they knew that a miracle had occurred before their eyes.

But more was in store for them. A banquet was held in the old Windsor Hotel to honor a number of visitors who had flocked to the Capital to see the new electric heating equipment used in the cars. Their credulity almost failed them when, after extolling the hospitality of their 2 young hosts, Ahearn and Soper, and the excellence of the cooking, they were told everything had been cooked electrically.

They fairly gasped and, like Doubting Thomas, just had to see; so they were shown the great electric oven, large enough to roast at one time half an ox, with vegetables and dessert, a complete banquet. That was April 3d, 1893—40 years ago.

As for many years past, the Hon. Thomas Ahearn, P.C., is today a director of Northern Electric Company, Ltd.—(Courtesy What's New.)

News of the Co-ops.

A sample copy of a propaganda news sheet issued by the Co-operative Wholesale Society of England is to hand. Short articles and numerous illustrations impress the reader with the variety and magnitude of the undertakings of the Co-op movement in the old land. For instance, one page includes pictures, with brief descriptions, of workers filling sacks of flour from a row of enormous spouts in a C. W. S. flour mill; a fleet of fishing boats unloading the raw material for the Co-op canning factory; long rows of white-clad girls filling cans with cherries in another C. W. S. cannery; a miner setting off to work in one of the Co-op collieries; logs being brought in to be sawn up and made into furniture for the Co-op homes; and a group of workers on the C. W. S. tea plantations in India.

New life has been imparted to U. F. Locals in many cases thru efforts of the Co-op Committee, consisting of N F Priestley, H B McLeod of High River, and G E Church of Balzac. The work has been extended this season and many new fields entered. Activities have for the most part been confined to the handling of bulk commodities with good success.

Tennis Notes.

The local tennis club will hold a tennis tournament during the next 2 weeks. This is being arranged by the committee in an attempt to determine the ranking players. The men are divided into class A and B, according to playing ability. It is to be hoped that a little enthusiasm for the game will be developed. Class B are hoping to be able to improve their playing, in order to enter the class A tournaments in the future. The draw follows—

Class A
Yeates—R Outway
Lewis—L Outway
Cullen—Thomas
W Oppertshausen bye
Class B—
P Comisarow—O Oppertshausen
Barth—O Outway
Larson—H Outway
L Wadell bye

The ladies draw has not yet been announced.

It is to be expected a few more guests will enter before closing time.

Sky Line Hiking in the Rockies

Organized trail hiking in the Canadian Rockies will be inaugurated for the coming year by a hike slated to start at Lake Louise on August 4th. An increasing interest is being taken in trail hiking in the Canadian Rockies, and a committee consisting chiefly of experienced members of the Trail Riders of the Canadian Rockies and the Alpine Club of Canada, has undertaken the organization of a new order called the Sky Line Trail Hikers. The inaugural hike will start this summer on August 4th from Lake Louise and tramp over the Saddleback through Paradise Valley and over Sentinel Pass to Moraine Lake, where the first night's camp will be made. On Saturday, August 5th, the party will hike from Moraine Lake over Wenckhemma and Opabin Passes and will have the thrill of crossing two glaciers before arriving

at Lake O'Hara. On Sunday the hikers will be able to take in the magnificent scenery around Lake MacArthur, Lake Oesa, and Mount O'Hara, and members of the party will be able to enjoy the excellent fishing in Lake O'Hara. The Pow-Wow will be held on Monday, August 6th, after which the members will hike to Wapta and catch the evening train back to Lake Louise.

Baseball Prattle—By H.C.O.

Wot a life! When you've got lots of ball, you don't want it; and when they don't play for a day or two, everyone wonders when the next game is to be staged. When Stony was losing, all you heard was a hue and cry to quit the league. During the last few days, since we haven't seen any ball announcements, the hue and cry is for ball. It is encouraging, to say the least.

No, we have not dropped out of the League; the schedule is just being readjusted, and at present, we do not know when the next game will be played. We'll try and let you know the new schedule next week.

Stony has one team which can turn the tables on the opposition when on the diamond. Our Juveniles, headed by an ambitious member of The Sun's staff (Geo. A. Trapp) went up to the Heatherdown picnic on Friday and brought home the bacon! They defeated a team older than they were by 17 runs to 6. Yes it does sound like the Big 5, but it's not. This bunch has practiced hard, and they deserved to win by virtue of airtight infolding and hard hitting. They'll probably be our Seniors in a few years.

Talking about the picnic, I'm going to take time out and congratulate our girls basketball team; they put Stony on the map by swamping all opposi-

Stony Plain and District

Mr and Mrs C Pitzler motored, this week, to Banff.

Messrs John and H Schultz were in Stony on Tuesday.

Mr Hy Enders returned on Friday from a motor trip to Wembley district. He was accompanied by Mr Jacob Schoep.

Among the week-end visitors in Stony were. Messrs G W and Tom Shreeves, Ledue; Phil A Alt, Grand Prairie.

Mr and Mrs L M Larson and Mr and Mrs T R Scott left yesterday on a motor trip to Calgary.

FOUND—Truck license No. B2264. Apply Sun Office.

on at the western villa and deserve credit. The present team is the best one ever to represent this town on the courts, and they are a fine bunch of athletes, no fooling. More power to you, girls!

Only a few games have been played lately in the big 5; the biggest upset was the defeat handed to Morinville by Red Sox; otherwise, the standing of the clubs remains the same.

The United Farm Women's Convention.

The convention of United Farm Women of Edmonton East and West constituencies, held here on the 5th, was successful beyond expectations. The delegates began to arrive early, and the morning session commenced shortly after 10 o'clock.

At the afternoon session, J Russel Love, M.L.A., gave an address, dealing with the C.C.F., outlining the present economic situation, and stating that the adoption of C. C. F. was the only way out of the present condition that farmers find themselves in.

Other speakers were: Mrs Richard Price, president of the United Farm Women; and Donald McLeod, M.L.A. for Stony Plain.

Among the resolutions passed by the delegates was one urging the members of all Locals to discontinue commercialised Sunday sport, and to work for a sinner and more wholesome observance of Sunday.

The display of handicraft was of an exceptionally high order; while reports received from the delegates of the various locals of United Farm Women and the Junior U.F.A. organisation showed that real progress was being made.

At the close of the afternoon session, lunch was served to all present by the ladies of Hansen's Corners and Holborn Locals, who were sponsors to the Convention.

Holborn Happenings.

A work gang from Holborn district were up to Stony last week, excavating on the premises of the new Farmers Co op. store, on 2nd ave. They did the excavating for the new 1000 gallon tanks, for the storing of gasoline, axle grease and kerosene. The gang was under the direction of D L Davidson, with S A Wright and a snapper team of p.b. Clydesdale mares on the slip.

It's rumored in sporting circles that a contender for the heavy-weight boxing title has been discovered here. Our boxing promoters have thought of the possibility of arranging a bout between this fistic wonder and either B. Tait or P. Schroeder. A few more trials will be held, before the big adventure is taken.

The majority of those in Holborn S.D. regret to hear that Mr Mills, who has been a very efficient teacher at a local school for 3 yrs., will not be with the pupils the coming season. Mr Mills was a very capable teacher, very popular with most of the pupils, a great sports promoter amongst children, and an enthusiastic worker in Jr. U.F.A. We wish him the best of luck, and sincerely hope his efforts at his new duties will be appreciated more than they have been here.—H.J.R.

Brightbank News

Bright Bank's big annual picnic occupied this week, on the grounds at Lunknow School. There were numerous competitions for everybody, with good prizes for the winners. The ball game engaged a lot of attention of the fans. The picnic was held under the auspices of the athletic club, of which Mr Norman Kreye is chairman.

The advance sale of tickets for Edmonton Exhibition is now on—5 for \$1. Get yours at The Royal Cafe.

Card of Thanks.

Philip Miller and Family wish to thank their relatives and friends for the many kindnesses shown them in their recent bereavement; also for the numerous floral offerings sent.

Stony Car Stolen.

Three adventurous youths, fresh from the Coast, left Edmonton Saturday night with a stolen car which broke down when near Stony. They then annexed Carl Fischer's car which Carl had left in front of his residence with the key in the slot. On their way to Edmonton they broke into a store and secured cash and "fags."

In Edmonton police court Tuesday two of the youths were sentenced to 18 months for each stolen car. The third youth was held on a charge of being in possession of stolen property.

Spruce Grove News

Mrs Andrew. Mayerthorpe, spent the week-end here with Mrs Wm McLeod.

Miss D Bates left Tuesday July 11, on her extended trip to Minnesota, U. S. A., and also to visit the world's fair at Chicago.

Capt E R Gibson is expected back today, the 15th, from South Cooking Lake, where he has been holding summer camp with the Boy Scout troop of Christ Church, Edmonton.

Mr and Mrs R N Sherwin left Sunday morning, on a motor trip to Calgary, to visit friends and see the Stampede.

The strawberry social and lunch held at Henry Ulmer's Store, on Saturday last, July 8, by the ladies of St Joseph's parish, from 5—9, was well patronised.

The local champion team of horse-shoe pitchers, Messieurs Rogers and D Brox, fresh from their recent victories, are intending to crash the gate at Edmonton Ex, when the bugle sounds for the opening of the tournament on the 18th inst.

The sidewalk repair squad has renewed the walkway in front of the local restaurant.

Grain hauling to the local elevators has received quite an impetus since the up-rise in the prices paid.

Summerfallowing is now the principal outdoor sport of the farmers hereabouts.

While fencing last week, Mr Jac Brox was unfortunate in having his left hand infected by coming in contact with poison weeds. When his hand and arm began to swell considerably, Jac made a trip up to Dr Walton, where the hand and arm received medical attention.

One motor party which had been heading for Seba on Sunday afternoon was robbed of its pleasure, as when their sedan was opposite Johnson's farm a front wheel decided to leave the party, hiked over a fence, and was lost in the grain. The wheel was finally captured, but the "bearing" could not be found, and the party camped there, waiting the arrival of a new one from the City.

On the Side.

The rumor cannot be verified that our big 5 team has been invited to play an Exhibition game at the Ed. Ex. on the 19th. A letter received from "A Ball Fan" reads:

"Dear Ed: Please to print a editorial, making the town council to donate a pace coacher for the Big Five team, as there's now a few Stony boys on the team."

And here's another, in a very optimistic strain:

"Cheerio, My Countrymen and Fans! Remember 'twas Clara Voyant said that, after July, our big 5 team'd win all its games."

As the Printer's devil once said: "It is just as well to remember that there is a good time coming even if it is a good time coming."

The Ed. came across the following "Thou Shalt Not" in the copy portfolio, and reproduces it here, placing emphasis on the paragraph which reads "The Game Is the Thing":

- 1—Thou shalt not quit
- 2—Thou shalt not alibi
- 3—Thou shalt not gloat over winning
- 4—Thou shalt not be a rotten loser
- 5—Thou shalt not ask odds thou wouldst be unwilling to give
- 6—Thou shalt always be ready to give thine opponent the shade
- 7—Thou shalt not underestimate an opponent, nor overestimate thyself
- 8—Remember that The Game Is the Thing; and he who thinketh otherwise is a mucker and no true sportsman
- 9—Honor the game thou playest, for he who playest the game straight and hard wins even when he loses
- 10—(Supply it yourself).

Big Five Schedule.

Wed. 12, Red Sox at Stony
Wed. 19, Morinville v Stony
— Games Played —

Peck's CAPS

—are made for those men and young men who appreciate the little touch of refinement in head dress.
The most comfortable and most serviceable caps made for golf, motor and all other occasions, as well as street wear.

T. J. Hardwick, Agent.
